

9. Wrecking Resources Jane Darke 2015

DO YOU KNOW THE SEASHORE CODE?

This is a copy of The Seashore Code, extracted from a poster produced by the North Cornwall Heritage Coast and Countryside Services.

Think about and discuss these questions.

1. Why leave animals where you find them?
2. Why carefully replace overturned rocks and seaweed?
3. Why not pull seaweed off the rocks?
4. Why make sure shells are empty?
5. Why think before buying shells?
6. Why take litter home?
7. Why and how would you report something unusual you find?
8. Why stay away from cliffs and check tides?

Now design your own seashore code leaflet or poster. Make it **bold**, include information about safe swimming and surfing too.
